Dear colleagues!

On behalf of Petrozavodsk State University I am delighted to invite you to Petrozavodsk, Russia for the international scientific-practical conference "*Perspective directions of modern legal science development*", September 21-23rd, 2014, devoted to 20-year-anniversary of the Faculty of Law and forthcoming 75-year-anniversary of Petrozavodsk State University.

This Conference will bring together participants from regions of the Russian Federation and other countries. Participants from Russian Federation and abroad are warmly welcomed to the Conference. Members of the Presidium of Association of law education institutions —rectors and deans of leading law institutions of the Russian Federation—are expected to take part in the Conference.

Matters raised at the conference will make the law professionals' society pay attention to existing challenges of the legal science on its general level. Research of various challenges which the legal science faces will be highly appreciated.

One of the topics to be discussed is complex analysis of perspectives for the European North and Arctic territories development, as well as the search for legal tools of problem-solving in this region on the basis theoretical and practical experience of the Russian and foreign legal science.

Participants of the conference will be given the chance to discuss actual problems of theory of law and its practical implementation, as well as modernization of different spheres of Russian legislation.

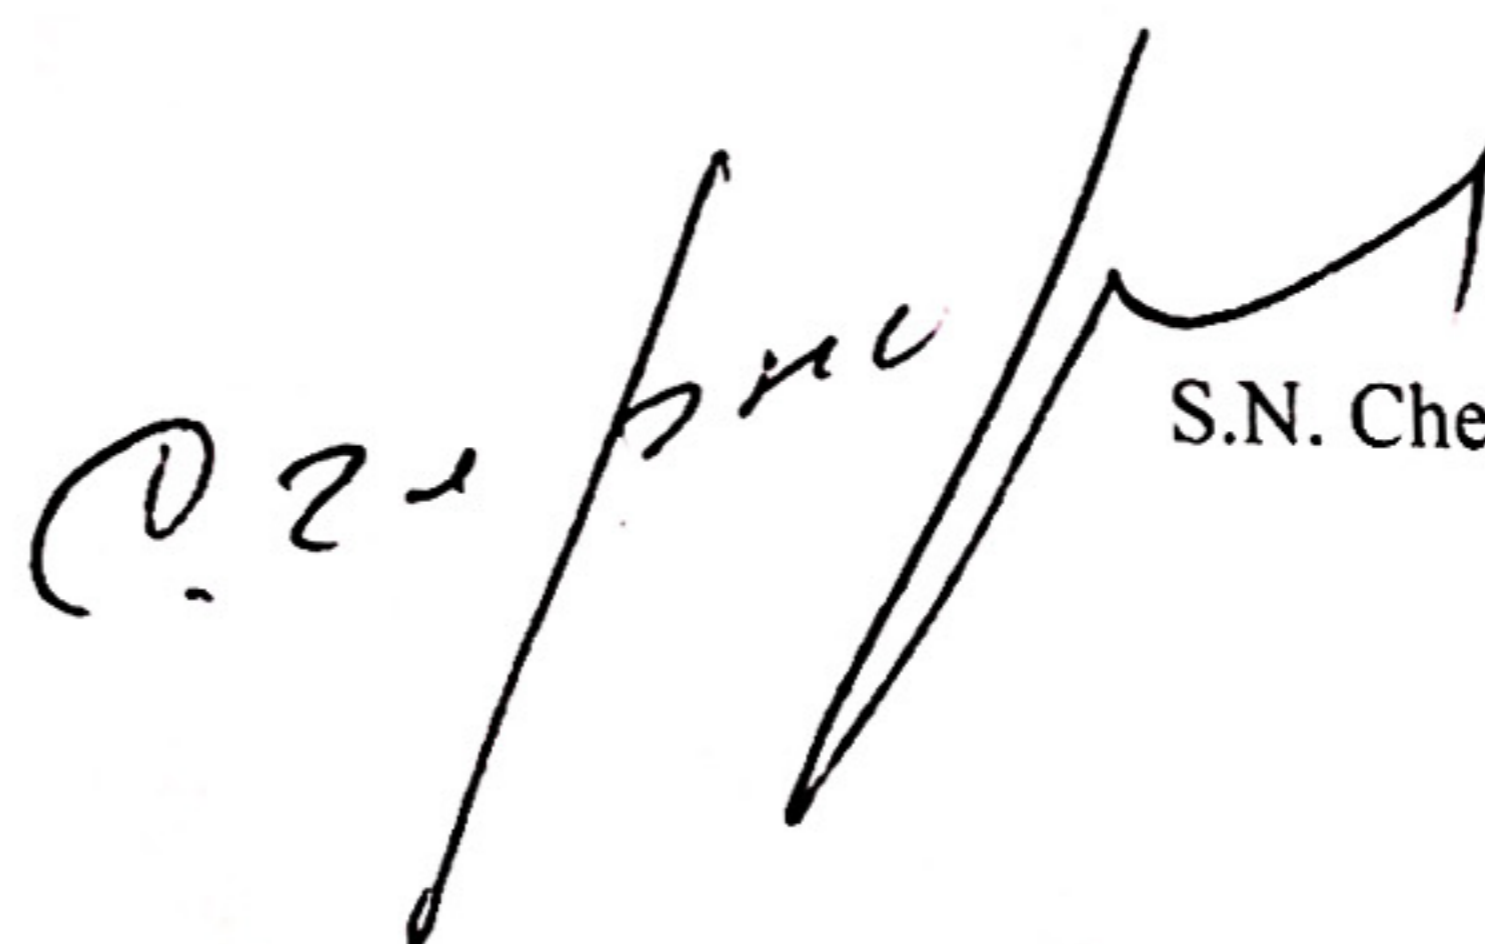

The conference materials will be published in law journals of the publishing house "Jurist", as well as in the electronic conference book (in Russian). The organization committee is entitled to sort materials for publication.

We look forward to greeting you at the Conference.

Dean of the Faculty of Law

of Petrozavodsk State University,

Professor, Doctor of Law.

S.N. Chernov
